WS03 - ADVANCING INDUSTRIAL AUTOMATION

BEST PRACTICES & INNOVATIONS WITH IEC 61499

FOCUS

IEC 61499 is gaining traction in the industry, with organizations like **UniversalAutomation.org** and **Eclipse 4diac™** driving discussions. Building on the success of the 2024 workshop in Padova, we aim to engage more industry professionals to share use cases and best practices.

Our goal is to foster interaction between academia and industry, enhancing knowledge exchange on IEC 61499. This workshop will be pivotal in advancing collaboration in this field.

TOPICS

- Use of IEC 61499 in OPAF applications
- Proposal of Engineering Methodology of IEC 61499 Program & collaborative comissioning
- Industrial UseCase
- Eclipse 4diac™: open-source infrastruture for Research, technology evaluation and standard development

WORKSHOP FORMAT

Full day Workshop, based on invited presentations.

For details, refer to the Call for Workshops and the ETFA 2025 website or contact ✉ INNA ARKHIPOVA.

→ REGISTRATION

Registration will be available starting from July 2025

SPEAKERS

BIANCA WIESMAYR

PRANAY JHUNJHUNWALA

HILMO DZAFIC

MAURO MAZZOLINI

OSCAR MIGUEL ESCRIG

RENATO PACHECO SILVA

MIKHAIL KOLESNIKOV

CO-ORGANIZERS

JꓘU LIT Cyber-Physical Systems Lab

GR3N

LULEÅ UNIVERSITY OF TECHNOLOGY

A! Aalto University
