YOUR AUTOMATION SOFTWARE

UNIVERSAL
AUTOMATION.ORG

Joining UniversalAutomation.org means becoming part of a one-of-a-kind organization sharing a common technology that unleashes innovation by decoupling software applications from the hardware on which they execute.

WHAT IS
UniversalAutomation.org

WE ARE

A **community** of users, vendors and academics organized around an independent non-profit association

WE USE & MAINTAIN

UAO-compliant platforms that use a **shared-source IEC 61499 runtime** execution engine

WE PROMOTE

Portability of vendor-independent automation application **software**

WHO IS „WE"?

- Technology vendors
- Users
- Academics
- Start-ups

WHY should Academics join?

Stay up to date with Next Gen automation systems Sponsor the initiative

Network with other companies & academics to learn & drive standardization

Influence the next development of the runtime execution engine

Get trained on the technology, interact with UAO Ecosystem

Access to IEC 61499 learning materials at zero cost

- 12-modules IEC 61499 Curriculum (11 training modules + 1 project work module)

- Video companion to 11 training modules in English

- All-way support to the academics while setting up the IEC 61499 course (Q&A session, workshops, academics community exchanges etc.)

UniversalAutomation.org

Software training and certification

- Free software licenses for students and lecturers

- Free training on the software and access to free training materials

- Support to integrate universal automation course in the regular curriculum as mandatory or elective

Hardware integration, simulation and projects

- Support to plan the hardware architecture for real time simulation with advice on purchase of relevant hardware at special academic prices

- Purchase of standard didactic package

- Link academics to business to do projects and proof of concepts, case studies
